## **Top 10 Rules of Trading**

Commit these foundational principles to memory. They are the difference between a long career and a blown account.

## 1. Master Risk Management

Capital preservation is your #1 job. Never risk more than 1-2% of your account on a single trade. No exceptions.

## 3. Position Sizing

Adjust contract size based on volatility. Don't trade the same size in quiet markets as high-impact news events.

## 5. Emotional Discipline

FOMO and revenge trading are account killers. If you feel emotional, step away from the screen immediately.

## 7. Understand Leverage

Futures are highly leveraged instruments. This amplifies gains but equally amplifies losses. Respect it.

## 2. Respect Stop Losses

Enter every trade with a hard stop loss. A mental stop is just hope, and the market doesn't care about your hope.

## 4. Follow a Plan

Too many traders fail because they have no plan. Systems like the L-2 Indicator make trading more systematic.

## 6. Market Awareness

Futures trade 24/5, but volume varies. Know when Asia, London and New York sessions open and close.

## 8. Keep a Journal

You can't improve what you don't measure. Record trades and mindset to identify behavioral patterns.

## 9. Continuous Learning

The market evolves.  
Strategies that worked  
yesterday may fail tomorrow.  
Be a perpetual student.

## 10. Start Small

Don't swing for home runs. Focus on  
consistency and base hits. Scalability  
comes after consistency.

Start Trading Without a Huge Account:

# THE MODERN PATH

Historically, you needed \$25k+ to trade effectively. Prop Trading Firms have revolutionized this. You trade their capital, and you don't take the risk.

MASTERY PROGRAM

**RISK DISCLOSURE:** Trading futures and derivatives involves substantial risk of loss and is not suitable for all investors. You should carefully consider whether trading is appropriate for you in light of your experience, objectives, financial resources, and other relevant circumstances.

**PAST PERFORMANCE:** Past performance is not indicative of future results. All trading results shown are historical and do not guarantee future performance.

**NO GUARANTEES:** There are no guarantees of profit. Trading futures can result in losses that exceed your initial investment. Only trade with capital you can afford to lose.

**EDUCATIONAL PURPOSES:** This guide is for educational purposes only and does not constitute financial advice. You should consult with a licensed financial advisor before making any investment decisions.

**TBB TRADES DISCLAIMER:** TBB Trades, a division of ANV Advisory LLC, provides trading education and tools. We are not a registered investment advisor. We do not manage client funds or provide personalized investment advice.
